

Satellite Weather Flying

The availability of in-cockpit weather has dramatically altered how pilots cope with IFR, thunderstorms, ice and other hazards. In this seminar we will discuss systems and strategies with numerous real-life examples.

Directions: The meeting will be held at the North Star Flyers "World Headquarters" hangar on the east side of Anoka County Airport between Nebraska and Nevada Avenues. Park in the grass along the airport fence east of the hangar row.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
